what you can do

In Memorium

Gerald Donovan

May the roads rise
to meet you,

May the winds be always
at your back,

May the sunshine warm
upon your face,

The rain fall soft
upon your fields,

And until we meet again,
May God hold you in the hollow of his hand

PRINCIPAL MESSAGE

Dear Seniors:

Remember the following lines…

"The man who fights for his ideals is the man who is alive."
(from Cervantes, author of Don Quixote)

Of course this can be rewritten as, "The woman who fights for her ideals is the woman who is alive". For a man or a woman, a true passion fills the mind, body and soul with energy. I hope you find vocations and interests that become the passion of your life. Enthusiasm is the key.

Best of luck. God bless you all.

FAREWELL MESSAGE

To all the musicians, to all the athletes, to all the club members, to all the thespians, to all the student-government delegates, to all the graduating seniors in the class of 2000, this is a farewell message. For the past four years, we have been together; now, we are all headed in different directions, and it is a huge turning point in our lives. We are leaving each other nervous and scared, but not ignorant. We are quite sure that our high school years have taught us many lessons, all of which will be helpful in our future endeavors. In this farewell, we will remind you not of algebra, history, chemistry or English, but of the most important lessons we have acquired from our four years at Peabody High.

Live life with no regrets. Never wish that you had spent more time with someone or invested more energy in something; live your life so that you can always say that you did your best. At the age of eighty, you should be able to look back at your young years with satisfaction, but look forward to your old age with the same enthusiasm. Everyone knows the saying, "If something is worth doing, it is worth doing right." We prefer that the saying read, "If something is worth doing, it is worth doing with passion." Never give up on anyone or anything. If our perseverance and our passion remain strong, then we will be successful in life. Nothing is impossible with dedication, and nothing can be completely miserable if we devote ourselves with enthusiastic passion. With this in mind, our optimism will elevate, and we will see ourselves evolve into young leaders.

What we have learned about relationships with other people is also precious information. We have learned that while selflessness is essential, it is also imperative that we take care of our own needs. We have learned that relationships are not instantaneous, but that they take time to develop. We have also learned that "Some people come into our lives and quickly go. Some stay for awhile and leave footprints in our hearts, and we are never ever the same." Every person who has meaning to us is able to somehow affect what our character develops into after our encounter with them. Knowing this, we are somewhat prepared to venture out into a world where relationships are its foundation. Unfortunately, people are unpredictable so we must prepare for the unexpected. We must acknowledge that relationships are based on the people with whom they are between, and that each person's individual character will guide the relationship to different dimensions. Compassion, understanding, selflessness, thoughtfulness, self-expression, and patience are what we perceive to be key features in any healthy relationship.

So, to the graduating class of 2000, we wish the best of luck. We have faith that you will be successful in your relationships and that you will persevere. Our country is expecting big things from us, and we are confident that each graduating senior has the capability to meet any expectation. Keep in touch with your close friends, and hold tight to your precious memories. What we had here together was amazing, but what we will develop individually in the next stage of our lives will be even better. We will grow and mature as individuals only to share our knowledge and enjoy even more miraculous experiences together.

Treasurer Lindsay Dodge

Class History

We will never forget the feeling that warm September morning, when the first day of high school rolled around. Fourteen years old, and anxious to board the big yellow bus. We had no idea what to expect, and we really didn't care. Yeah, we were all a little nervous to cross paths with a big senior, and every single one of us got lost at one point or another that day...but what an exciting time! We had finally done it, we crossed that bridge from childhood to being an adolescent...a high schooler!!

So how did we get here? Where exactly did the past four years go anyway? Some 1256 days ago we entered into what was supposed to have been the best years of our lives...so were they? Were they all that you had hoped they would be? We entered as frightened freshmen and when no one was looking we were transformed into these confident and strong individuals. Some of high school was fun..and some not so fun, but like it or not you will never forget the memories of Peabody High. No one will ever forget things like "GI Jane" running down the halls screaming, CLASSES PEOPLE!! Or the ever so popular traffic on Lowell Street every morning. These are supposed to be the little things that we will miss??

Any sports fan will agree that our class was blessed with a tremendous amount of athletic talent. Just this season alone the Tanners have beaten their Greater Boston League foes in Football, Swimming, Gymnastics, Volleyball and Cross Country for the first time in nearly two decades the hockey team had also captured their division title. Girls Basketball, Soccer, Field Hockey and Golf were all invited to compete in their individual state tournaments. And what about those Football Cheerleaders?? Congratulations on the National spotlight girls. Our Spring Sports Teams have victories to obtain.

Athletics were a huge part of our four years at PVMHS, but what about doing the things outside of school that mark the period in history we will remember as our time, our years. We will never forget the indescribable Columbine High School shooting, and the shock wave that followed, leaving a "flashbulb" memory in our minds forever. No one will ever forget the supposed Y2K glitch...The Boston Garden being torn down...Thanks for the memories. And two of our greatest childhood heroes retired...Michael Jordan and Wayne Gretzky. But probably the saddest moment of our entire high school career was mourning the loss of our good friend Michael Sawyer. We have never been more proud of our school than weI were at that time. At some point everyone needed someone to talk to, and there was always someone there. We all wore our blue ribbons in support of Mike, and we established a scholarship in his name for remembrance.

Then there was the party of the millenium...New Years Eve, which seemed to bring yet another year of crazy happenings...another year of waking up earlier than any other neighboring city...another year of stuffed crust pizza in the cafeteria...another year of Friday night football. Looking back a little further we remember our Jr. Semi and Prom. We never looked so good!! We cannot wait to see the tanned faces return as we celebrate our final Prom at PVMHS on June 7th. Can you believe that 4 days later we will be alumni? Four years of seeing Mr. P's face every morning...four years of parking lot mob scenes and ten fire drill days..four years of band awards and drama festivals...four years of dissecting pigs and pep rallies... four years and some 120,000 tardies later we will have graduated and advance to another state of being. But being what??? We say stronger, braver, and more self dependant than four years prior.

From a movie which relates to each of us in a different way comes our concluding quote, "Life moves pretty fast, if you don't stop and look around once in a while you could miss it." -Ferris Beuller. Good Luck class of 2000!!!

New York

As time zones welcome the new millennium on January 1, the world celebrates with grandeur, pageantry and spectacular fireworks. President Clinton gives a hopeful speech in the minutes before midnight at the Washington Monument, and 2 million people gather in Times Square to watch the specially built 1,000-pound Waterford crystal ball drop at midnight.

Flash

The public and private sectors spend hundreds of millions of dollars to ward off the Y2K bug. The world lets out a sigh of relief after midnight strikes and no major computer malfunctions occur.

The FBI warns of possible terrorist acts on New Year's Eve and stays on national alert throughout the celebration. After the arrest of one man with bomb-making materials, Seattle decides to cancel its Space Needle celebration.

Steve Lux/Corbis Sygma

Fearing the collapse of the world's banks, utilities and transportation systems, thousands of people stock up on food, water, money, ammunition and generators. After midnight, it soon becomes apparent that the preparations were unnecessary.

A surprising number of people, appalled by the exorbitant costs of travel and events, decide to stay home on New Year's Eve. Many companies and performers drastically slash prices as a last-minute lure.
